### The Experts' Verdict

**FRANCES Furlong, nurse practitioner at City Skinklinic (0870 751 3870 or [www.cityskinklinic.co.uk](http://www.cityskinklinic.co.uk)):** "Patrick has pronounced folds around the nose.

"This can be improved by fillers, thread lifting and collagen boosting

treatments. His skin may also be prone to broken veins. This can be resolved with intense pulsed light (IPL) treatments."

**MARY Burney, clinical services director at Transform Medical Group, the UK's larg-**

**est cosmetic surgery group (0500 202 020):**

"Patrick has aged as would be expected. From the lines on his forehead, it is obvious he has not had Botox in this area.

"But he may have had it in his glabellar lines between the eyebrows."

**Q** NO matter how much I diet, I can't get rid of the ugly "saddlebags" on my thighs. I've thought about liposuction, but am worried about going under the knife. I've heard of jabs that will help.  
**Kim Arnold, WILTSHIRE**

**FRANCES SAYS:** WE see many women at

the clinic with localised fat. We use mesotherapy to help break it down. It can also help cellulite.

Although you have fears about liposuction, some doctors advise this first, followed by mesotherapy, in which microinjections deliver vitamins and medications into the area of concern.

### The Experts' Verdict

**FRANCES Furlong, nurse practitioner at City Skinklinic (call 0870 751 3870 or visit [www.cityskinklinic.co.uk](http://www.cityskinklinic.co.uk)):**

"Uma has looked after her skin very well with no indication of sun damage on her face or décolletage.

"No doubt she has regular collagen-boosting treatments such as Intense Pulsed Light (IPL), mesolift or skin peeling. Her forehead and eye area are free from lines so she may have had muscle-relaxing jabs."
